(b) whether it is also a fact that since then the compiling of figures is been discontinued; if so, the reasons thereof; and

(c) in the absence of such compilation, how the comparative positions of rural and urban per capita incomes are processed and known and checks are planned for growth of disparity?

THE MINISTER OF STATE IN THE MINISTRY OF PLANNING AND THE MINISTER OF STATE IN THE MINISTRY OF PROGRAMME IMPLEMENTATION (SHRI SUKH RAM)-, (a) Yes, Sir. Corresponding ratios for different States and Union Territories were, however, not compiled.

(b) No, Sir. For preparation of rural and urban incomes separately, detailed data on number workers in these two areas are required, which become avail able from population census only onc$_e$ in 10 years. The rural urban p-ir capita in come ratio was compiled by the Central Statistical Organisation (CSO) for the first time for the year 1970-71 after the release of results pertaining to working force based on 1971 Population Census. Similar exercise is proposed to be initiated for the year 1980-81 ou the basis of work ing force estimates based on 20 per cent sample which have become available re cently from 1981 Population Census.

(c) In the absence of estimates of per capita income separately for rural and urban areas, the comparisons and checks between the rural ind urban disparity are planned on the basis of the results of con sumer expenditure surveys of the National Sample Survey Organisation.
